2. Founded in 1894, UL is one of the oldest and largest standards development and certification companies in the United States. UL has engaged in testing, inspecting and certifying products as well as developing safety standards for over a century. UL published its first safety standard in 1903 regarding tin clad fire doors. In 1905, UL certified multicolored Christmas lights and fire extinguishers for the first time.
3. Traditionally, UL's core activities included promulgating safety standards, certifying that representative samples of products satisfy applicable safety standards and providing follow up testing and inspection services to confirm that manufactures are in compliance.
4. Today, UL is a global independent safety science company offering certification, validation, testing, inspection, advising, training and auditing services for a variety of industries around the globe across through its five key strategic business units: Product Safety, Environment, Life & Health, Knowledge Services and Verification Services.
5. Opposer is also the exclusive owner of the UL-in-a-circle marks:

6. Opposer has been engaged in the business of developing standards, providing testing reports and certifying products that conform to UL's Standards for Safety under the names and marks UNDERWRITERS LABORATORIES and/or UL since at least as early as 1906.

7. Opposer has been authorizing the use of the UL certification mark on products that conform to UL's Standards for Safety since at least as early as 1937.

8. Opposer has developed standards, tested products and authorized use of the famous UL Certification Mark in interstate commerce in the United States under the trade names, marks and certification marks UNDERWRITERS LABORATORIES®, UL® and UL-in-a-circle logo  (hereinafter, the "UL® names and marks") since at least as early as 1937.

9. Opposer has made use of the UL® names and marks since at least as early as 1937, more than 70 years prior to the July 10, 2009 date of first use claimed in Application Serial No. 85/595,216 for the mark UJ DRINKS WELL WITH OTHERS & Design, filed by Applicant, Universal Joint Holdings LLC ("Applicant"):

10. Opposer serves all members of the general public, including, but not limited to, consumers, manufacturers, suppliers, retailers, vendors, trade groups, industry associations, regulatory bodies and governmental entities.

11. Within the food safety and drinking water industries, the UL certification mark routinely appears on food service equipment, dishwashing machines, commercial cooking, hot

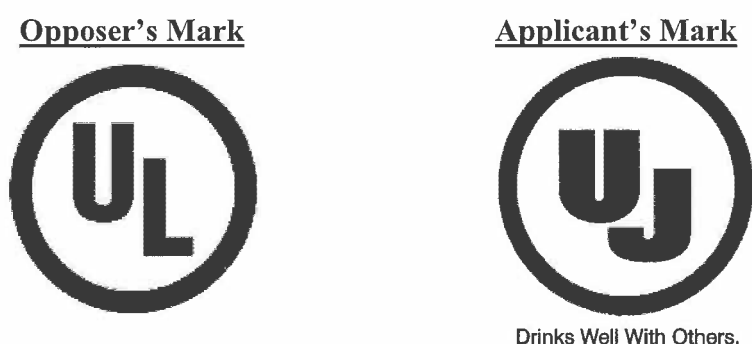

food holding and transport equipment, water heaters, refrigerators and freezers, food preparation equipment, automatic ice-making equipment, manual food and beverage dispensing equipment and vending machines for food and beverages. UL's food safety services also include training, inspections and auditing programs with respect to food safety and compliance programs. With respect to drinking water, Opposer tests and certifies drinking water and bottled water and provides drinking water analytical services.

12. Opposer's millions of customers have made extensive use of Opposer's famous UL certification mark on household, consumer, commercial and industrial products including refrigeration equipment, lighting products, cable, wiring, building materials, life safety vests, batteries and power packs for computers and consumer electronics, traffic signals, sprinklers, cash registers and many more.
13. Over the past 119 years, Opposer has made extensive use of its UL® names and marks through a wide variety of marketing channels and outlets on a national, regional and local basis, including but not limited to television, radio, consumer and trade newspapers, consumer and trade magazines, industry trade journals, promotional literature, brochures, direct mail, email campaigns and interactive websites such as <ul.com>, <safetysmart.com> and <safetyathome.com>.
14. As a result of Opposer's extensive customer use of the UL certification mark, standards development activities, follow up conformity assessment and inspection services, community involvement and safety science research under the UL® names and marks,

Opposer's UL® names and marks have a national and global reputation of technical expertise and integrity. The UL® names and marks have become a symbol of trust, objectivity and safety.

15. Opposer's UL® names and marks are well known and recognized by the general public as well as members of local, state and federal government regulatory bodies and industry trade associations, as marks indicating safety science, testing, inspection and certification services originating with Opposer.
16. The UL® names and marks are famous among the general public as a symbol of Opposer's safety science, testing, inspection and certification services originating with Opposer.

"Bar that serves alcoholic and non-alcoholic beverages and food", in Class 43.
18. Applicant's application for the mark UJ DRINKS WELL WITH OTHERS & Design is for a mark which is virtually identical to Opposer's famous UL certification mark and the UL® names and marks, rendering Applicant's mark confusingly similar to Opposer's UL certification mark and the UL® names and marks.

19. The "UJ" and circle design is the dominant portion of Applicant's mark as it is the largest element of Applicant's mark and dwarfs the size of the "Drinks Well With Others" wording which appears underneath in fine print. Further the letter "J" in "UJ" is simply the reverse image of the letter "L" in Opposer's "UL®" names and marks. The overall commercial impression of Applicant's "UJ" and circle design logo is virtually identical to the commercial impression of Opposer's UL in a circle design and the UL® names and marks. A side by side comparison of the marks further demonstrates the similarities:

Accordingly, the likelihood of confusion arising out of Applicant's prominent use of "UJ" in a circle is manifest.

20. Applicant's UJ DRINKS WELL WITH OTHERS & Design mark is likely to cause confusion or mistake, or to deceive, and will deceive and mislead members of the purchasing public into believing that UJ DRINKS WELL WITH OTHERS & Design is somehow endorsed by, affiliated or associated with Opposer, one of the most famous standards development and testing, inspection and certification companies in the United States.

21. Upon information and belief, Applicant is using and will continue to use the mark UJ DRINKS WELL WITH OTHERS & Design in connection with a “bar that serves alcoholic and non-alcoholic beverages and food.”
22. Applicant’s description of services does not contain any limitations on trade and marketing channels. Therefore, it can be assumed that Applicant’s services are offered to all members of the general public and will be marketed through all channels of trade, which necessarily includes Opposer’s target customers and marketing channels.
23. Given Opposer’s extensive presence in the, *inter alia*, food, building materials, lighting, HVAC/R, packaging and consumer appliance industries, it is more than likely that Opposer’s famous UL certification mark will appear many times in Applicant’s bar, namely, on lighting fixtures, sprinklers, fire extinguishers, gaming machines, cash registers, computers, televisions, video arcade games, water heaters, boilers, commercial cooking products, powered hot food holding and transport equipment, dishwashers, automatic ice-making equipment, food storage equipment and packaging, food and beverage dispensing equipment, refrigerators and freezers. The majority of patrons of Applicant’s bar will have already been exposed to the UL® names and marks many times over prior to entering.
24. Applicant’s services are related and complementary to Opposer’s testing, inspection and certification services, namely, with respect to food safety and drinking water safety services.

25. Applicant's use of the virtually identical mark  reflects Applicant's intention to capitalize on and trade off the goodwill and reputation established by Opposer over the past 119 years.

26. Applicant's prospective and current use and registration of the mark UJ DRINKS WELL WITH OTHERS & Design in connection with a "bar that serves alcoholic and non-alcoholic beverages and food" identified in U.S. Application Serial No. 85/595,216 in Class 43 is likely to cause confusion with the UL® names and marks, as it falsely implies to the trade and the public that Applicant's bar services are endorsed, inspected, certified or somehow affiliated or associated with Opposer's testing, inspection and certification services.

27. Applicant's prospective and current use and registration of the mark UJ DRINKS WELL WITH OTHERS & Design is likely to cause confusion with the UL® names and marks as used by Opposer in connection with its food safety and drinking water services.

28. Opposer believes and alleges that Applicant's mark, when applied to the goods and services set forth in Application Serial No. 85/595,216 in Class 43, is likely to cause confusion or mistake, or to deceive, and will deceive and mislead the trade and purchasing public into believing that Applicant is licensed or controlled by Opposer, that Applicant is in some way related to Opposer, or that Applicant's services are sponsored, licensed, approved or endorsed by Opposer.

29. Applicant's use of a mark which is virtually identical to Opposer's UL® names and marks for testing, inspection and certification services is likely to dilute the distinctive quality of Opposer's UL® names and marks.
30. By reason of the foregoing facts, Opposer will be irreparably damaged by registration of Applicant's confusingly similar and diluting mark UJ DRINKS WELL WITH OTHERS & Design on the Principal Register of the United States Patent & Trademark Office for the services recited in U.S. Application Serial No. 85/595,216 in Class 43.

**COUNT II - DILUTION UNDER 15 U.S.C. § 1125(c)**

31. Opposer repeats and realleges the allegations set forth in paragraphs 1-30 hereof as if fully set forth herein.
32. Opposer's UL® names and marks as used in connection with standards development, testing, inspection and certification services are famous among the general public.
33. Opposer's reputation for quality testing, inspection and certification services is unsurpassed in the industry. Opposer's more than a century old reputation for independence, integrity, technical expertise and trust is invaluable.
34. Opposer's UL® names and marks are inherently and commercially distinctive.

35. Upon information and belief, Applicant uses the mark

in commerce.

36. The July 10, 2009 claimed date of first use in the subject application for UJ DRINKS WELL WITH OTHERS & Design is decades after Opposer's UL® names and marks became famous.

37. Applicant's use of the mark UJ DRINKS WELL WITH OTHERS & Design in connection with a "bar that serves alcoholic and non-alcoholic beverages and food, in Class 43 is likely to dilute the distinctive quality of Opposer's UL® names and marks by eroding the public's exclusive identification of Opposer's UL® names and marks with Opposer, tarnishing and degrading the positive associations of Opposer's UL® names and marks and blurring the distinctiveness of Opposer's UL® names and marks or otherwise lessening the capacity of Opposer's UL® names and marks to identify and distinguish Opposer's certification, testing, inspection, auditing and training services.

38. Registration of Applicant's mark would be inconsistent with Opposer's prior rights in its UL® names and marks established under common law, as well as inconsistent with Opposer's statutory grant of exclusivity of use of its UL® names and marks, and would destroy Opposer's investment and goodwill in its UL® names and marks.

39. By reason of the foregoing facts, Opposer will be irreparably damaged by registration of Applicant's confusingly similar and diluting mark UJ DRINKS WELL WITH OTHERS & Design on the Principal Register of the United States Patent & Trademark Office for the goods and services recited in U.S. Application Serial No. 85/595,216 in Class 43.

**WHEREFORE**, Opposer prays that this Opposition be sustained and that U.S. Trademark Application Serial No. 85/595,216 be refused registration in Class 43.
